

SKODA

The 100% electric
Škoda Enyaq
Coupé Sportline

Stand out in every way

Highlighted by its sleek, sloping roof and standout rear bumper, the all-new 100% electric Škoda Enyaq Coupé Sportline captivates at every turn. Plus, features like the Top full LED tail lights with dynamic rear indicators and sharp, glossy black tailgate lettering affirm its sporty essence. Even from behind, it's clear this car leads the pack.

Race your pulse

Destined to be a dynamic, thrill-seeking partner, the Sportline comes with specific equipment that emphasises the car's sporty ambitions. The Sportline design, featuring black exterior side-view mirror caps, side window frames, rear diffuser, and inscriptions on the 5th door, brings more dynamism and emotion to the vehicle's appearance. The car's sporty charisma is further enhanced by Anthracite alloy wheels and the Sportline badge on the sides

Style and functionality

The car is also equipped with black exterior elements such as the front grille frame, front bumper air curtains. The full LED Matrix headlights, top full LED tail lights fitted with animated turn indicators, and 20" Vega anthracite alloy wheels come as standard.

Fully electric 210 kW 285 PS

The updated Enyaq battery has higher performance and torque, with improved efficiency and range with great acceleration, turning radius and regenerative braking for a smooth and clean ride.

210kW

Sportline

Dynamics, aesthetics, and exclusive details come together in the Sportline Design Selection. The upholstery features a combination of leather/microfibre fabric with silver stitching. A distinctive, stylish element is the front seat piping in silver. The dashboard is complemented by a leatherette pad with silver stitching. Other characteristic features include the Carbon décor (dashboard and doors), leatherette door inserts, and black floor mats with silver piping.

Sports seats

All Sportline cars feature front seats in a sporty design, providing maximum comfort even during dynamic drives. The upholstery is very pleasant to the touch and easily cleanable.

Infotainment

The infotainment system, with a 13" display, can be used to configure all vehicle functions and control the air conditioning. It also features a touch slider operation, where different functions such as the air conditioning, seat heating, infotainment volume can be adjusted without touching the screen.
